Toolkit's optimization

Considering the international dimension of Neighbours' Day, a new web portal has been created: www.world-neighbours-day.org. From the United States to Japan, through Latin America and Europe, you can find out every thing you need about Neighbours' Day celebrations around the world.

Showcase of our success, our website www.european-neighbours-day.eu has been totally revamped. Our site hosts 38 fully-dedicated national satellite sites, all displayed in their respective local languages. Enhanced with new "country" pages (Serbia, Croatia, Bosnia and Montenegro) and an ever-growing number of members, the site proposes instant upload and display of articles, photos and videos from all over the world.

To make the event's organisation easier, a communication kit is provided to all city councils and organisations partners. It is now available directly on the website www.european-neighbours-day.eu.

This kit contains :

- The informatics files in high definition format (leaflet, invitation, post card and poster)
- A guide book, a timetable and a good practices guide.

Reasons for success

1. An answer to people profound expectations

- The need to meet and to know each other better.
- The need to live in a more friendly and inclusive society.

2. A simple mechanism. No skill is required, just a pinch of generosity and a drop of enthusiasm.

3. A tailor made event for the partners: easy to implement.

4. An event providing considerable advantages: enhances the feeling of security, develops mutual help and the meaning of common belonging, involves different cultures and generations, and develops friendship.
